

Cat's Get Grumpy When Their Tales are Dirty

Cat's get grumpy when their tails are dirty.

Cat's get grumpy when they wake up too soon.

Cat's get grumpy when they can't find their toys.

Cat's get grumpy when they fall off a chair.

Cat's get grumpy when their food bowls are empty.

Cat's get grumpy when there is too much noise.

Cat's get grumpy when their blankets are cold.

Cat's get grumpy when there are no laps to lay on.

But ...

When their tails are clean,

And they've had enough to eat,

And it is just quiet enough,

And they have played as much as they want,

And there are people around to pet them,

And there is someplace warm and safe to snuggle ...

Cats are very, VERY happy.
